

**AMENDMENTS TO THE CLAIMS:**

The following listing of claims will replace all prior versions, and listings, of claims in the application:

1-4. (Canceled)

5. (Currently Amended) An anti-damage contact lens case comprising:

a base; and

two independent containers connected on the base, each container including:

an outer wall of a first height connected to the base,

an inner wall of a second height greater than the first height and having at least one opening therein, said inner wall connected to the base and defining an enclosed chamber for holding a contact lens therein, and

an enclosed space between said inner wall and said outer wall which is fluidly connected with said enclosed chamber by said at least one opening.

6. (Currently Amended) An anti-damage contact lens case according to claim 5, wherein said outer wall and said inner wall each have an annular configuration.

7. (Currently Amended) An anti-damage contact lens case according to claim 6, wherein said enclosed space is an annular space.

8. (Currently Amended) An anti-damage contact lens case according to claim 6, wherein said at least one opening includes at least one slot in said inner wall which fluidly connects said enclosed chamber with said enclosed space.

9. (Currently Amended) An anti-damage contact lens case according to claim 5, further comprising two lids for engaging with said outer wall to close said two containers.

10. (Currently Amended) An anti-damage contact lens case according to claim 9, wherein each said outer wall includes screw threads on an outer surface thereof for threaded engagement by a respective said lid.
